

klacci[®]
life unlocked.

**Door
Opening Solutions**

Opening the doors...

Once you have installed Klacci security products,
you know that your business is secure, you
will begin to feel at ease and put your worries
aside - comfortable in the knowledge that you
have created a safer environment at work.

...to a safer future.

Behind the Klacci brand there is a
great production team that designs,
develops and manufactures locking
systems and security devices with a
quality of product second to none.
This manufacturing excellence comes
from more than 50 years of experience
as one of Taiwan's largest and most
prestigious lock manufacturers.

klacci[®]
life unlocked.

NFC

Security and convenience within your reach

The **i** Series Standalone Access Control Solutions combine the advanced technology of Radio Frequency Identification (RFID) with I-TEK's manufacturing expertise and experience, bringing forth a new series of high-quality products that reflects the modern lifestyle. Collocate to use with choices of I-TEK's highly performed lock series, you will be comfortable to know that you have the right product in place to meet your security needs.

With Klacci's APPKEY mobile app, turn your smartphone into a digital key for your door lock. Using the near field communication technology (NFC), easily manage access authorization, define access time and keep track of the entry log. Say goodbye to your keys and welcome the new convenient way.

Here comes a revolution as the addition of intelligent communication and management will upgrade your access control to a completely new level of convenience and security. Experience the unlimited possibilities of intelligent communication technology in your hands with the **i** Series Access Control Solutions.

LEDs indicate valid/invalid entries.

Mechanical key override option during power down or "Privacy Mode".

Available in "Escutcheon" or "Sectional" design .

Access management through Mifare® card, NFC capable smartphones and key.
